

PROGRAMMABLE PRINTERS FOR STATIC CLING SERVICE REMINDERS

This full feature service reminder solution takes professionalism to a new level. No longer will you worry about your customer being able to read the tech's handwriting. This printer is an on-demand direct thermal printer. You can customize your service reminders any way you like. You can use one of the 12 pre-programmed sticker designs that ship with your printer or create your own with the software provided.* We also ship a Keyboard Display Unit so that this printer can work as a stand alone unit or it can be connected to your Windows PC via the USB or serial port. Designed for a wide variety of business applications, these reliable, low maintenance printers feature permanent downloading of label and tag formats, soft fonts and graphics.

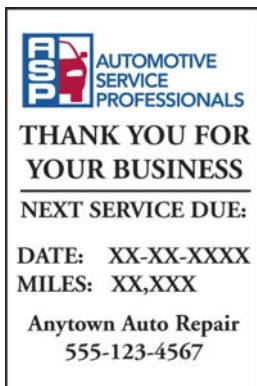

With just 3 easy steps you get a professionally printed Service Reminder in just seconds. Choose the desired sticker layout, enter the required information on the keyboard (date, mileage, etc.) and print.

**Windows PC required to create your own sticker layout with the software.*

THREE DIFFERENT STICKER DESIGNS

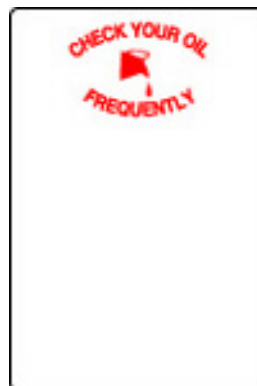

ASP

This sticker comes with the 2-color ASP logo imprinted at the top of the sticker. The printer will imprint your company name and phone number along with the information to return for service.

Service Dealer

Available with either of the two stickers below. The printer will imprint your company name and phone number along with the information to return for service.
